Dear Willy

First I will wish you and all the rest of the Jensen Famely a Happy Chrismas and a prosperous New Year, e, t, c,

I do not remember if I have answerd your last letter, but as I fell that it to much of a job to write to all off the Jensen Famely, it is your turn this time, it were Orlos last year, I am often wondring how you are getting along in general, and with your Education in particular, you said at the time that you left the Old Country, that you were determent to get and Education when you got to the States, what about it, ?, are you making good your Intensions, or are you like many other young Men, just drifting along, taking the Road of least resistence, to do nothing and be nothing, ?, which you will much regreat later in Life, the best Invesment that you can make is to put something into your Head, that is providing that you are going to use it, if you only want to use it for a Hat Rake, why i supose it is good as it is, you may contend that you have no means to go to School for, but that is no excuse you have ben in the States for three Years, so you could or ought to had some Money laid up, but perhaps your Cigaret Smoking intrefer with you Work, to the exstent that you have quit work, to smoke, ?!?????????????????????????????? now is the time for you to make up your Mind, to learn something, you will much regreat it later i Life, if you do not pay the price, both in Sacrifises and in Money, but in the event that you have no Initiative or foresigt, or Ambation, over and abowe to take the Road of least resistence, whic-h leads to nowhere, but if that Satiesfie you why you are O.K. at least at the present time,

Here is no news of Intrest, nothing has transpired sence the Folks from Nebraska left here, and I presume that they have informt the Jensens in Everett abouth the condations over here in general and the Famely in particular, so in that respect there would be nothing for me to repete, we have had no winter jet, about Forty to Fifty Degrees, so it is what we call good weather for this time of the year, the Harvest were a good fair crop with the exseption of the Frugt crop which were short, there is a Houndred Thousand Unemployed at present time, the present Government is long on promises but short on results, like all Gass Balcons, thier Philosphy were that they could lift them selv in thier Booth straps, they contend that it will make a country prosperous to pay Money to and for Idelness, that is one way to get votes, at other folks exspences,

I am still doing Business at the same old stand, I do not make any money but I keep the wolfs from the Doors, I have ben looking for other Office quaters for three years, but I have jet, not ben able to find anything that is suteble to a fair price, I have allso ben looking for to buy a Building, but have not jet found anything that is suteble to my Purce, or to a fair price, but I am still hopefull that i can make a chance shortly. I have some undesireble Niebors, they are Rusian Philosophers, they want all the good things of Life ~~without~~ given to them without Compensation, they want to make Society as well as the Individual Looffing, Drinking & Smoking, that kind of Philosophers have a narow Gage Mind, Prosperous with

In Event that you are not going to Earn your self and Education of some kind that would make you better fit, to in a easyer way to compete for a living, i would have no objection if you started to pay back the Money that you owe me, as I have privious informt you, you do not have to pay them at this time if you Educate your self, but if you do not do that, your Credit with me is at end.

With the best wishes for a Successfull future to you and the rest of the Jensens Famely, yours as ever, Ounkel,

K. P Olesen
